Welcome! In this month's issue we discuss potential repeal of South Carolina CON law, artificial bone growth, and the role of patient trust in the ASC industry.

South Carolina Senate Votes to Repeal CON Laws

Becker's ASC

The South Carolina Senate voted Jan. 26 to [eliminate its certificate of need program](#). The repeal would remove the requirement for healthcare providers, including ASCs, to receive state permission to build facilities, make expansions, or buy expensive equipment.

Bone Growth-Inspired Microrobots

OrthoFeed

Many know that post-birth, the fontanelle tissue that covers gaps in the skull gradually changes to hard bone. Now, [researchers have combined materials](#) that together resemble this natural process. The applications for orthopedics and spine care are extensive.

How Patient Trust Shapes Our Work

Profiles in Success: Bernhardt Wealth Management

Our work demands high levels of trust. Between Compass and its partners. Between those partners and their patients. And that's a tremendous privilege.

"Going under the knife is a sacred moment, and it happens tens of thousands of times a year inside our company... The surgeon takes care of the patient, while we take care of everything else.

We materially improve the lives of our patients... We do it in an extraordinarily high-quality, low-complication, low-infection, highly convenient environment." -CEO Darin Hill, in recent interview with Bernhardt Wealth Management

Utilizing Double Machine Learning to Discern Risk Factors for Preoperative Depression Among Spine Patients

Journal of Orthopaedic Experience & Innovation

This study utilized double machine learning to identify risk factors associated with elevated levels of preoperative depression among patients undergoing single or multilevel ACDFs.

Two risk factors emerged as most significant in association with moderately severe depression.

The State of the ASC Industry

Compass

Attempting to predict the future is a fool's errand. Plato said, "I am the wisest man alive, for I know one thing, and that is that I know nothing."

Despite that, a few ASC current trends are worth calling out. [Read](#) CEO Darin Hill's [State of the ASC Industry 2022](#).

Capital City Surgery Center Celebrates

LinkedIn

Capital City Surgery Center was recognized as the #1 ASC in North Carolina by *Newsweek* for 2021 and again in 2022!

Congratulations to [Capital City](#) for this [huge accomplishment](#) and their celebration of 10 years serving the community in and around Raleigh.
